

Release Notes

EasyBuilder 8000 Version 4.65.04 Build 2013/03/04

Corrections

The following errors were corrected in this release:

- 1.** Fixed the problem where EasyBuilder 8000 may crash when opening a project which uses non-existent shape/picture library on PC.
- 2.** Fixed the problem where 16-bit WAV sound file will not be played correctly on i-Series HMI.
